## AUTOMATIC ETHANOL FIREPLACE

BEV Technology®

### AUTOMATIC ETHANOL BURNER

The automatic burner with the patented BEV Technology® is the most advanced product in the industry ensuring the cleanest burning process without any smoke, smell or ash. The flame is produced by combusting ethanol vapours and has no direct contact with the liquid fuel.

### FLAME CONTROL

Have control over the fire. Choose ECO mode for smaller, ambient flame or increase its height to experience the full beauty of fire.

### INTEGRATED CONTROL PANEL

The built-in control panel guarantees intuitive and easy control of the fireplace. The automatic pump communicates with the device, delivering the necessary amount of fuel. There is no risk of overfilling the tank or spilling the fuel.

### FREESTANDING DESIGN

Its compact size allows you to install it inside an existing wall niche as it blends well in all kinds of traditional-style arrangements and decorative fireplace portals.

### OPTIONAL DECORATIVE GRATE

Add a touch of a traditional look to the burner with the optional decorative grate.

### OPTIONAL REMOTE CONTROL

Take full control over the fireplace with the intuitive and minimalistic remote in your hand.

# Basket Fire Logs

(BEV Technology®)

Fuel tank capacity	1.75 L
Maximum burn time	6.5 hours
Maximum heat output	2.8 kW
Minimum room cubature	28 m <sup>3</sup>
Flame height regulation	2 stages
Weight	14.5 kg
Fuel type	bioethanol 86 - 96,6%
Flue	not required
Air change rate	1 space volume per hour
Power supply	230 V
Finish	black powder coating
Materials	steel, galvanized steel, toughened glass
Application	for indoor use only

## CONTROL OPTIONS

optional
